

LET'S TALK ABOUT

KIBBLE LIST

A LEH CARE GUIDE

By Happy Quills

KIBBLE

Good quality cat biscuits should be part of your hedgehog's staple, everyday diet. These biscuits can be available for your hedgehog to eat at all times without being limited unless your hedgehog is visibly overweight (in which case, biscuits can be limited to 1 tablespoon per day).

Meat should ideally be the first ingredient – **any foods listed with cereals or meat meal as the first ingredient should be used as fillers only alongside the higher quality biscuits.**

Protein should be between 30-35% so if choosing a higher protein food, make sure to mix with lower protein foods.

A rough guide of what your hedgehog will need based on their weight:

- Overweight: 10-13% fat
- Ideal weight: 13-15% fat
- Underweight/struggles to keep weight on: 15-20% fat

Choose between 3-5 of the following, catering the fat content to what your hedgehog needs.

NAME	FAT %	PROTEIN %	MAIN INGREDIENT
James Wellbeloved Turkey Light	10%	34%	Turkey Meal
AVA Weight Management	10%	38%	Chicken
Wainwrights Turkey and Rice Light	10%	30%	Turkey Meal
